- I learned more from section than actual lecture—explanations were very clear and helpful.

- Nicholas had a great enthusiasm for the subject he taught. His explanations were always clear and he always made an extra effort to make sure we understood what the message of the discussion section was. Of all the discussions I have been a part of he has been the most helpful and encouraging TA I have encountered.

- Sometimes, the explanations are too confusing and hard to understand. Also, at times, his method contradicted the professor's method, which caused a bit of confusion, but was not too common.

- The only thing I would add for improvement is further explaining solutions within the discussion period, as there is a large emphasis on group work. I often find myself confused on where solutions arise.
